Sørg for gyldig forsikring. Droner er luftfartøy og må ansvarsforsikres

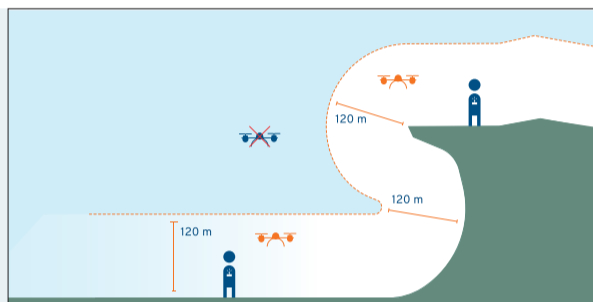

Make sure you have a valid insurance. Drones are aircraft and require a liability insurance

Gjør deg kjent med droneforbudssoner. Hold minst 5 km avstand til lufthavner.

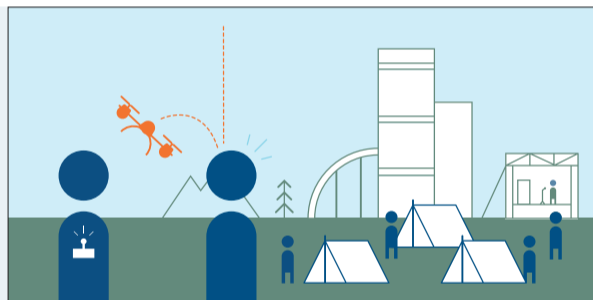

Familiarize yourself with no-fly zones. Do not fly within 5 km from airports.

Du skal alltid kunne se dronen. Maksimal flyhøyde er 120 meter over bakken.

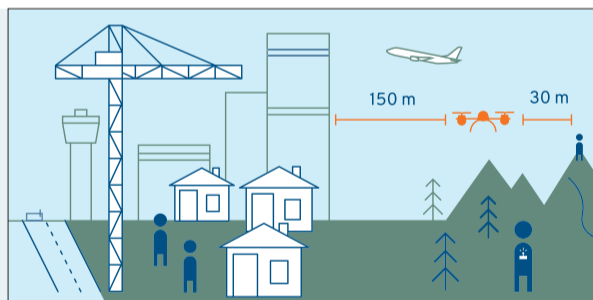

You must always be able to see the drone. Max altitude is 120 meters from the ground.

Unngå å fly over andre personer. Ikke fly over folkemengder, festivaler, sportsarrangementer o.l.

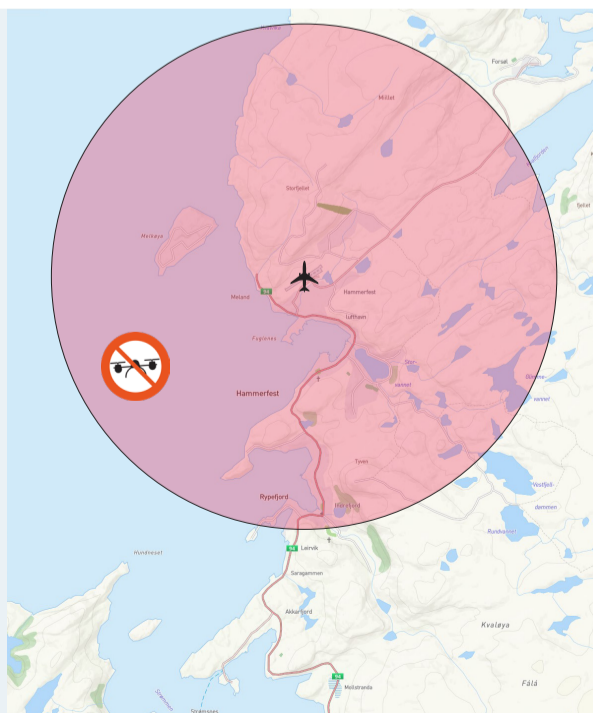

Avoid flying over uninvolved persons. Do not fly over assemblies of people, festivals, sport events, etc.

Hvis dronen veier 500g - 25kg (eller er merket C2-C4): Hold minst 150 meter avstand fra bebygde områder og uteområde hvor mange ferdes og minst 30 meter fra andre personer.

If the drone weighs 500 g - 25 kg, or is marked C2, C3 or C4: Keep a distance of at least 150 meters from populated areas and other areas with people. Always keep the drone at least 30 meters from uninvolved persons.

Droneforbudssone Hammerfest lufthavn
